Fauquier County Environmental Services

May 2019

School Educational Programs

Come visit the Corral Farm Facility for an exciting field trip. Our educational programs provide children with a positive and meaningful experience. Tours educate students on equipment, landfill and transfer operations, and recycling. This month we hosted three elementary schools, one middle school, one high school, and one home school group at our facility. Pictured above is a class of 1st graders from Claude Thompson Elementary. Our staff will also come to your school to talk with students; in April we visited several classrooms within the County. To schedule a tour or classroom visit please call (540) 422-8840, or email Trish Ethier at: trish.ethier@fauquiercounty.gov.

DATES TO REMEMBER

5/4- Household Hazardous Waste Collection

5/18- Household Hazardous Waste Collection

5/27- Memorial Day (all sites **CLOSED**)

When Thunder Roars, Go Indoors

With the spring weather, thunderstorm season is here. To ensure worker safety, Fauquier County Environmental Services complies with OSHA and National Weather Service guidelines. Upon the first sight of lightning or sound of thunder, our staff takes mandatory shelter indoors until 30 minutes after the last thunderclap. Public collection facilities will remain open for resident use, at your own risk. The Scale House and Transfer Station facilities at Corral Farm will suspend services for the duration of a thunderstorm. We encourage County residents to take shelter during thunderstorms, and bring us their trash and recycling at another time. To be safe, "when thunder roars, go indoors."

Warrenton Interchange Construction

Construction on the Route 15/17/29 Warrenton Interchange has begun. Once complete, this VDOT project will ease the flow of traffic at the intersection of Route 15/17/29 and Route 880 (Lord Fairfax Road.) Initial right-of-way excavation and grading is underway, with construction to continue through the fall of 2020. Fauquier County Environmental Services asks that residential and commercial drivers exercise caution when accessing the nearby Corral Farm Facility during all phases of construction. Be alert for changing traffic patterns and movement of construction vehicles in the area. For more information on this project, please visit:

CURRENT VACANCIES

Waste & Recyclable Material Collector (Part-time)

Site Attendant (Part-time Permanent 20hr/week)

SWM Operator II-Maintenance (Full-time)

Apply online at www.fauquiercounty.gov

Rinsing Recyclables

Rinsing recyclables is an important step in recycling properly. Unrinsed recyclables not only create an odor problem, but attract rodents and stinging insects as well. Especially with warmer weather arriving, bees, wasps and yellowjackets become a nuisance and may sting workers and the public when they drop off materials. In order to increase safety for everyone, please rinse and dry all bottles, cans and jars before recycling.

Change to County Ordinance

As of April 12, 2019, refuse collection within Fauquier County *cannot* begin before 6:00 am. Pursuant to Fauquier County Code Section 13.5-4(b)(3), a \$250 penalty can be imposed for any collection prior to 6:00 am.

Fauquier County Collection Site services *will not* be impacted by this change.

Hours of Operation

***Summer hours in effect**
